

# Cooperative Research Centre for Landscape Environments and Mineral Exploration (CRC LEME) Supplementary Research Scholarship in Regolith Science Expression of Interest 2025

The scholarship is open to applicants undertaking full time research in regolith\* science. The scholarship is intended to supplement the major scholarship held by the recipient.

*\*Regolith is the blanket of unconsolidated, loose, sediment that sits on top of bedrock on the surface of Earth and other planetary bodies. Regolith includes transported sediment, such as dust and alluvium, as well as in-situ weathered rock. Regolith science therefore encapsulates all research into the erosion, transport and transformation of minerals on planetary surfaces, as well as the interaction between minerals and their chemical constituents, water and living organisms. Ultimately, regolith science is the study of Earth's critical zone: research into the processes that sustain life today and in the past, and the processes that effect the formation and discovery of Earth resources.*

## PERSONAL INFORMATION

Name	
University Email	

## STUDENT & PROGRAM DETAILS

Student ID	
Academic Program	
Faculty / School / Discipline	
Principal Supervisor Name	
Title of Research Topic	
Scholarship details	<i>Are you receiving any other financial support for your program? This could be school/discipline/other funding.</i>

Please return the completed form to  
**Adelaide Graduate Research School** ([research.scholarships@adelaide.edu.au](mailto:research.scholarships@adelaide.edu.au)) with a  
copy of your Structured CV by Friday, 27 June 2025

## RESEARCH RELEVANCE

Please provide a brief description of your research into regolith science.

## RESEARCH RELEVANCE

How does your research benefit your academic field and the University?

**Student Declaration:**

I declare that the information given above is to the best of my knowledge correct. I have read the rules relating to Cooperative Research Centre for Landscape Environments and Mineral Exploration (CRC LEME) Science Supplementary Research Scholarship in Regolith Science and consider myself eligible to hold the Scholarship. I authorise the Adelaide Graduate Research School to obtain relevant information about me to support this application from educational and other sources as required.

I have attached a completed structured curriculum vitae.
