RESEARCH OUTPUTS

List all published research outputs to date. Categorise by type of output and then list in reverse chronological order (i.e. starting with most recent research output).

Research Output examples include: peer reviewed journal articles, book chapters, books, peer reviewed conference papers, abstracts, posters, inventor or patent applications (PCT) and granted patents, creative works* and other non-standard research outputs in a relevant field of research that have been published or accepted for publication.

*Creative works may include significant outputs in the art, music, creative writing and design research fields (e.g. an exhibition (with published catalogue) with multiple venues of international standard, or a series of performances of international standard, for which reviews in significant outlets are available).

Note: Use Harvard UofA Referencing style to provide bibliographic information for output. Some examples of how to reference commonly included outputs are shown below. Please delete examples and any categories that are not applicable prior to submitting. Further guidelines can be accessed at <https://uamediaprod.github.io/referencing-guide/>
